

PROVANT™

COVER

PROVANT™ COVER is a NPE-free deposition and drift management agent designed to suppress off-target drift of spray application. It provides maximized deposition by increasing droplet size and maintaining a more uniform spray pattern. PROVANT COVER can be applied with both air assist and conventional spray nozzles.

APPLICATION DIRECTIONS

HERBICIDES:

3-4 oz/ac.

FUNGICIDES & INSECTICIDES:

2-3 oz/ac.

Do not exceed 2 qt/100 gallons of spray.

COMPATIBILITY

PROVANT COVER is compatible with most crop protection products when mixed with water. Do not mix directly with other crop protection products in the absence of water, such as in a mixing cone.

FEATURES AND BENEFITS

- Dual mode of action: drift and deposition aid; minimizing off target movement.
- Oil emulsion technology combined with a resin creates a state-of-the-art DRA.
- NPE-free for late corn post-applications.

PACKAGE SIZE

2 x 2.5 gallon
