

## GROWER/FINISHER

**ALL. TOGETHER. PERFORMING.**

Our animal nutrition team offers facility walk-throughs, close-out data, feedlot projections, bunk scoring, TMR audits, cost per pound of gain analysis, and ration balancing.

### ACCURATION® 44 R227

#### FEATURES // BENEFITS

Protein ..... 44.0%  
including 25.0% from non-protein nitrogen  
Fiber ..... 15.0%  
Calcium..... 5.0%  
Phosphorus..... 0.5%  
Selenium.....0.5 ppm  
Vitamin A..... 17,000 IU/lb.

- Protein supplement for finishing cattle
- Provides protein, minerals, vitamins and Rumensin®
- Intake Modifying Technology promotes snack eating to minimize digestive upset and improve feed efficiency
- Pelleted form
- Can be mixed on-farm

#### WHEN TO USE

- Self-fed
- Finishing cattle over 650#

#### MIXING RATE

Mix at 10% AR 44 R227 and 90% Corn

#### OPTIONS

Clarify®, Tylan®

### BEEF X 40-20 R400 FINISHER PLT

#### FEATURES // BENEFITS

Protein ..... 40.0%  
including 20.0% from non-protein nitrogen  
Fat ..... 3.0%  
Fiber ..... 6.1%  
Calcium..... 0.6%  
Vitamin A..... 41,470 IU/lb.

- Protein supplement for finishing cattle
- Provides protein, minerals, vitamins and Rumensin
- Can be used in TMR finishing diets
- Pelleted form
- Can be mixed on-farm

#### WHEN TO USE

- Hand-fed
- Total mixed rations
- Finishing cattle over 650#

#### MIXING RATE

Mix 200# of 40-20 pellet with 1800# of non-medicated feed

#### OPTIONS

Clarify, Tylan

### STEAKMAKER® BP FORMULATOR R1500

#### FEATURES // BENEFITS

Calcium..... 28.0%  
Salt..... 11.0%  
Selenium.....12 ppm  
Vitamin A..... 120,000 IU/lb.

- A high calcium mineral supplement designed for finishing cattle on grain or grain by-product (distiller's grains or gluten feed) diets containing adequate protein
- Meal form

#### WHEN TO USE

- Finishing rations with grain or grain by-products

#### FEEDING RATE

0.3-0.4 lb. per head per day in a complete mix

#### OPTIONS

Clarify, Tylan

### BEEF X 0.5# MGA® B1000 FEEDLOT BALANCER

#### FEATURES // BENEFITS

Calcium..... 27.0%  
Phosphorus..... 0.1%  
Salt..... 14.5%  
Selenium.....8.7 ppm  
Vitamin A..... 79,920 IU/lb.

- A high calcium mineral supplement designed for finishing cattle on grain or grain by-product (distiller's grains or gluten feed) diets containing adequate protein
- MGA for suppression of estrus (heat) in heifers confined for slaughter. MGA can be mixed with feed to increase rate of gain and improve feed efficiency.
- Meal form

#### WHEN TO USE

- Heifer finishing rations with grain or grain by-products

#### FEEDING RATE

0.5 lb. per head per day in complete mix

## GROWER/FINISHER

ALL. TOGETHER. PERFORMING.

Our animal nutrition team offers facility walk-throughs, close-out data, feedlot projections, bunk scoring, TMR audits, cost per pound of gain analysis, and ration balancing.

### BEEF X 90:10 RUM FINISHER

#### FEATURES // BENEFITS

- Protein ..... 11.4%
- Fat ..... 3.3%
- Fiber ..... 4.4%
- Complete finisher option using Purina Accuration® 44 R227 pellet
- Intake Modifying Technology promotes snack eating to minimize digestive upset and improve feed efficiency
- Texturized complete feed

#### WHEN TO USE

- Self-fed
- Finishing cattle over 650#

### ACCURATION® GROWER LW 40

#### FEATURES // BENEFITS

- Protein ..... 40.0%
- Fat ..... 1.5%
- Fiber ..... 19.2%
- Accuration Intake Modifying Technologies to promote snack eating and maintain a more stable rumen pH
- Pelleted form
- Can mix with on-farm commodities
- Rumensin®
- Supports rumen health and immune function with the addition of Peloton® Yeast
- Formulated to optimize growth performance in calves. Less days to reach 500#

#### WHEN TO USE

- Self-fed
- Lightweight calves weighing 250-500#

#### MIXING RATE

Mix at 17.5% of this pellet with 82.5% of whole or coarse cracked corn

### BEEF X 36% B200 AN GROWER PLT

#### FEATURES // BENEFITS

- Protein ..... 36.0%
- No added urea
- Designed to be mixed with grain for growing calves
- Provides supplemental protein, mineral, and vitamins to maximize growth
- Bovatec®
- Compliant for use with Aureomycin® and Oxytetracycline
- Can be mixed on farm

#### WHEN TO USE

- Hand-fed

#### FEEDING RATE

1.5 lbs per head per day with additional grain and forage

### BEEF X 36-15 R333 GROWER PLT

#### FEATURES // BENEFITS

- Protein ..... 36.0% including 15.0% from non-protein nitrogen
- Designed to be mixed with grain for growing dairy beef and beef calves
- Provides supplemental protein, mineral, and vitamins to maximize growth
- Rumensin
- Can be mixed on farm
- Pelleted form

#### WHEN TO USE

- Self-fed or hand-fed

#### FEEDING RATE

1.5 lbs per head per day with additional grain and forage
